SALE VENUE is situated 8kms south of Bordertown on the Naracoorte Road.

Buyers Information

Inspection

All cattle will be available for inspection from 11.00am on the morning of the Sale, however inspection can be arranged before hand by appointment.

Luncheon

Will be available on the property.

Delivery

While every care will be taken, no responsibility can be accepted whilst awaiting delivery.

Transfers

Please indicate on the Buyers Instruction Slip if a transfer is required.

Health

All cattle are officially government confirmed as TB free and Brucellosis free. The property has a status of MN2 for Bovine Johnes Disease, Certificate No. S117 and S447. All sale cattle treated with 7 in 1 (booster due Autumn 2012). All sale cattle treated with Dectomax, January 2012. All sale bulls ear notch tested as NOT persistently infected with the BVDV virus. All bulls have been vaccinated with Pestiguard and Vibrovax.

Interstate Purchasers

The Vendor agrees to hold any stock for interstate buyers until any necessary tests have been completed. Expenses incurred payable by the Purchasers. Should any cattle react, the sale will be cancelled.

Accommodation and Transport

The Auctioneers will be pleased to arrange accommodation in Adelaide or Bordertown. Interstate Purchasers can be met at rail or airway terminals.

Buying Orders

The Auctioneer's Stud Stock staff are well acquainted with the herd. Buying orders will be diligently executed by officers experienced in stud beef cattle practice.

Insurance

Can be arranged for transit and/or periods up to twelve (12) months cover.

Rebate

A rebate of four percent (4%) will be allowed by the Vendors to Interstate Agents (other than interstate representatives of Selling Agents) and South Australian Associated Agents on any purchase they influence, provided that they advise the Selling Agent in writing and make settlement giving the names of the Purchasers not later than twelve (12) hours prior to the sale.

BUYER'S INSTRUCTION SLIP - see Page 68

+12	+1.4	+38	+2.5	+0.1	+0.2	+0.7	0.0	EU	+\$73

Breedplan Explanation

EBV's are provided for the following traits...

CE DIR	Calving Ease Direct. Indicates how this animal influences the birth of its progeny. Positive EBV's indicate easier calving.
CE DTRS	Calving Ease Daughters. Indicates how well the animal produces daughters that have easier calving.
GL	Lower Gestation Length EBV's indicate easier calving and increased growth after birth.
SS	Scrotal size is an indicator of male fertility in regards to semen quality and quantity. SS is also positively associated with female fertility.
Birth Weight	The lower the birthweight EBV, the lighter is the birthweight potential of the progeny.
Genetic Milk	Reflects extra calf weight at weaning due to the genetic influence a sire has on his daughters milking and mothering ability.
200 Day Weight	Indicates the relative weight advantage of a sire at 8-10 months of age.
400 Day Weight	Indicates the relative weight advantage of a sire at yearling age.
600 Day Weight	The best single estimate of an animals genetic merit for growth beyond yearling age.
MWT	Mature Cow Weight is an estimate of the genetic difference in cow weight at 5 years of age.
CWT	Estimates the genetic difference in carcass weight and is adjusted to 650 days of age.
Fat Depth	Bulls with negative (-) EBV's for this trait are expected to produce relatively leaner progeny than bulls with positive (+) EBV's.
EMA	Bulls with positive (+) EBV's for this trait are expected to produce more muscular progeny than bulls with negative (-) EBV's.
Retail Beef Yield	Bulls with larger EBV's are expected to produce progeny with higher yielding carcasses.
Intramuscular Fat %	Positive EBV's indicate likelihood of more intramuscular fat.
Accuracies	The accuracy provides a measure of the reliability of the EBV. The higher the value, the less likelihood of the EBV changing with the addition of more performance records on the animal.
Selection Indexes	An index ranks an animal for single production goal - profit. They take the hard work out of knowing how much emphasis to give each of the available growth, maternal, carcass and fertility EBV's when selecting parent animals. An index is a composite EBV of traits best suited to a particular production system and target market.
Supermarket Index	Targeting the domestic supermarket trade. Steers are either finished on grass or grain (eg 50-70 days). Steers are assumed marketed at 450kg live weight (250kg HSCW and 12mm P8 fat depth) at 17 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.
Grass Fed	Targeting pastured finished steers. Steers are assumed marketed at 600kg live weight (330kg HSCW and 8mm P8 fat depth) at 23 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.
Grain Fed	Targeting pastured grown steers with a 125 day feedlot finishing period for the grain fed markets. Steers are assumed marketed at 600kg live weight (330kg HSCW and 20mm P8 fat) at 20 months of age. Daughters are retained for breeding. There is a significant premium if steers reach a marble score of 2 or greater.
EU Index	Targeting pastured finished steers for the EU market. Steers are assumed marketed at 620kg live weight (340kg HSCW and 14mm P8 fat depth) at 24 months of age. Daughters are retained for breeding. There is no marbling requirement.

Calgary was purchased as a calf at foot at Debarry dispersal. He won his class at 2009 Sydney Royal. He is in top 1% for IMF and top 5% for 600 day weight. He has 5 sons on offer and one in the Dubbo team.

We're here when you need us.

**The business of farming is not for everyone.
But like you that's the business we're in.**

With 170 years experience, Elders has the livestock knowledge to support your business. We market over 2.3 million cattle and 13.5 million sheep each year. But there's so much more we can offer. Our specialist animal health services and exclusive ELMS protocols improve the health, weight and quality of your cattle and sheep, whether they're on the farm, in transit or in the yard. And through traditional or online auctions, forward contracts or direct to processor, we ensure more options for buyers and sellers. So, when you're looking for the best livestock partner, we're here when you need us.

The Pestivirus ghost busters are coming.

As a rural reseller, you'll know how scary Pestivirus can be.

So you'll be happy to know, starting in September, we'll be running an extensive campaign to raise awareness of the devastating disease and the benefits of Pestigard®.

The campaign will feature TV, Press, Direct Marketing and more, and will drive producers to your store to seek your advice.

If you want to know more about Pestivirus, or you need to stock up on Pestigard®, call your Pfizer Sales Representative or Pfizer on 1800 335 374.

Health. Performance. Growth.
